

MANNOL Montage Cleaner
9672

Montage Cleaner is a special high – performance cleaner for metal car parts.

Properties:
- Suitable for parts made of any metals and alloys;
- Has excellent cleaning properties;
- Applicable to brake pads and discs, clutch and transmission parts, tools, etc.;
- Removes dirt, grease, oil and other petroleum products, brake fluid, residues of burnt and evaporated technical fluids;
- Facilitates disassembly and installation of parts, saves time for disassembly, reduces the effort applied when disassembling and dismantling components and parts during car repairs;
- Suitable for cleaning vehicle bodies, oil filters, motorcycle chains and timing chains, engines, door hinges and electrical contacts, garden equipment (minitractors, motor cultivators, lawn mowers, etc.).

Application: Spray the cleaner on the dirty parts and in their joints and let it drain. After the solvents have evaporated, the parts remain clean and fat-free. Attention: the Product may damage some paints and plastics. Before use, check the product for compatibility with them on a small invisible area of the surface.
