

MANNOL Universal Multipurpose Grease MP2 Ester

8106 / 8027 / 8047

Multipurpose grease for general use based on highly refined mineral oils with lithium soap-based thickener and the addition of synthetic esters, special anti-oxidative as well as anti-corrosive additives.

Properties:
- The presence of synthetic esters significantly increases the anti-wear, anti-seize and anti-friction properties of the grease;
- Keeps its performance properties from -30 °C to +120 °C, which increases the service life of the bearings;
- Has good water resistance;
- Protects reliably against corrosion in soiled environments for long periods of operation;
- Excellent mechanical and oxidation stability;
- The consistency of the grease remains constant during long-term storage. Shelf life 5 years from the date of production.

Application:
- High-speed slide and roller bearings;
- Bearings of electric motors and electric generators, pumps etc.;
- Closed bearing units with lifetime lubrication;
- Developed for use in all types of mobile machinery as well as for general industrial applications.

Observe the manufacturer’s instructions in the operating manual of the machinery!
