

MANNOL Brake Grease 8025

Polyalkylene glycol thermo- and waterproof anti-corrosion grease for guides and caliper piston. Prevents sticking, souring and drying of parts. Reduces friction and wear on pads. Neutral to rubber and brake fluid. Compatible with DOT 3, DOT 4, DOT 5.1.

Operating temperature: -50°C / +1000°C.

Application: Thoroughly clean the treated surfaces and apply a thin layer of grease.
