

MANNOL Motor Cleaner Solvent Free

4904

Concentrated detergent with the highest cleaning effect for use in foam generators (high-pressure devices) for non-contact washing of the engine and similar units, as well as other metal products. It does not contain organic solvents.

Product properties:
- Forms very rich active foam;
- Effectively removes all types of stains and dirt from metal surfaces: dust, fuel, oil, fat, soot, etc. due to its excellent splitting properties;
- Does not cause corrosion of ferrous metals and oxidation of non-ferrous metals;
- Easily washed off with water;
- Can be diluted with warm and cold water. Effective even when using hard water;
- Does not contain chlorine compounds;
- Biodegradable, environmentally friendly product that meets all EU requirements.

Compatibility: safe for all types of metal surfaces, paint surfaces, plastics and rubber-technical products.
Application: to prepare the working solution, the concentrate must be diluted with water in a ratio of 1:10.

Recommendation
TYPE Car Engine Wash Shampoo
