

MANNOL Activ Foam

4905

Concentrated detergent with the highest washing and cleaning effect for use in foam generators (high-pressure devices) and manual foam sprayers for non-contact car washing.

Product properties:
- Forms very thick, stable active foam;
- Effectively removes all types of stains and dirt: dust, fuel, oil, fat, soot, insect residues, etc. due to its excellent splitting properties;
- Dissolves limescale without leaving a trace;
- Does not cause corrosion of ferrous metals and oxidation of non-ferrous metals;
- Easily washed off with water without leaving streaks and smudges and whitish spots;
- Leaves an excellent glossy visual effect and a feeling of perfect cleanliness;
- Can be diluted with warm and cold water. Effective even when using hard water;
- pH-neutral.

Compatibility: safe for all types of metal surfaces, paint surfaces, plastics and rubber-technical products.
Application: To prepare the working solution, the concentrate must be diluted with water in a ratio from 1:50 to 1:100, depending on the degree of contamination.

Recommendation
TYPE Concentrated detergent
