

MANNOL Universal 15W-40

7405

All-season universal economy-class engine oil on a highly refined mineral basis for turbocharged and non-turbocharged petrol and diesel engines, including those with very high mileage, operating under various operating conditions.

Product properties:
- Compatible with all sealing materials thus reducing the leakage probability and ensuring the required oil pressure even for engines with high mileage;
- Low volatility reduces oil consumption through burning;
- A thoroughly balanced additive package ensures an efficient service of an engine in all modes of operation: cold start, increased load (off-road and uphill driving, towing, driving with maximum load) and in high-temperature ambient conditions;
- Long-lasting oil film effectively protects from wear, reduces friction and prevents corrosion;
- Ensures reliable lubrication of all engine components under all operating conditions;
- Good detergent and dispersing properties reduce ash content thus minimising the soot and carbon formation and maintaining engine components clean throughout the service life;
- Natural antioxidants effectively resist ageing.

Intended for the maximum protection of petrol and diesel engines of a wide car fleet (passenger cars, light SUVs, minibuses and light trucks) produced by Russian, European and other manufacturers.
The oil is not suitable for use in heavy trucks and similar vehicles!
