

MANNOL Scheiben-Reiniger (-70 °C)

5024

Scheiben-Reiniger (-70 °C) is a highly efficient concentrated winter wiper for use in the washer tank.

Properties:
- Effectively removes dirt, road de-icing agents, oil stains, silicone film and other heavy dirt from windows and headlights;
- Guaranteed to remove ice down to -70 °C;
- Quickly and easily provides transparency of the windscreen, increasing driving safety. Suitable for all types of windshields: triplex, securiflex, etc. with or without heating, as well as for rear and side windows (tempered glass) and headlights made of any material;
- Has a pleasant citrus smell
- Does not leave stains and streaks on the glass;
- Free of phosphates, biologically neutral;
- Chemically neutral to rubbers, plastics and paint coatings.

Application: dilute with water in a ratio of 1:1 (1 liter of product per 1 liter of water), while the solution will work down to – 20 °C, and pour into the washer tank. When diluted 1:2 (1 liter of the product per 2 liters of water), the solution will remain functional down to – 10 °C. It can be used in a concentrated form.
