

MANNOL Carburetor Cleaner 9970

MANNOL Carburetor Cleaner is an effective cleaning agent for the carburetor without removing it. It removes high-temperature deposits from the inner and outer surface of the carburetor. It completely optimises the function of the fuel system. This product is applicable to two- and four-stroke petrol engines with and without catalyst.

Remove the air filter, turn off the engine and spray the cleaner on all visible parts. Spray it on the outer parts and let them dry. Turn on the engine and let it work at medium revs. Besides, it is suitable for cleaning of motorcycle chains, engine separate parts, clutch parts, oil pumps, cogwheels, crankshafts and all other metallic non-painted parts. Notice: This product dissolves varnish and damages plastic.
