

## MANNOL Diesel Plus 9984

### MANNOL Diesel Plus

Complex diesel-fuel additive that cleans the injection system, prevents scorching as well as eliminates resin deposits from settling in it. Ensures smooth engine running and reduced fuel consumption.

Effectively optimises diesel engine performance, cleans the injection nozzles, minimises ageing and oxidation processes. Suitable for use in biodiesel. Does not harm diesel particulate filters (DPF).

**Application:** Add to the fuel tank before filling at ratio of 1:1000 (50 ml to 50 L of diesel fuel).
