

MANNOL Hand Automaster

9555

Hand Automaster – cleaning paste for hands. It is intended for cleaning hands from strong industrial and household pollution both in auto repair shops and in the household.

Properties:
- Contains non-hazardous food solvents, surfactants and abrasive powder;
- Has a slightly alkaline pH value of ordinary solid soap (pH 9,5) – not dangerous for the skin of hands;
- Gently and effectively removes the most ingrained dirt and the most persistent dirt, including: oils, resins, bitumen, paints, varnishes, adhesives, sealants, soot, carbon deposits, etc. without having a harmful effect on the hands, without damaging the skin and leaving a pleasant feeling on the skin;
- Hypoallergenic.

Application: wet your hands with water and apply a small amount of paste, rub thoroughly and rinse with water. Repeat the procedure if necessary.
