

## MANNOL Motor Starter 9669

MANNOL Motor Starter

Special spray that facilitates and accelerates engine start. Ensures reliable assistance with cold start, high humidity, damp spark plugs and a weak battery. Suitable for both petrol and diesel engines of passenger cars, trucks, construction equipment, all types of marine and boat engines, as well as agricultural equipment.

Application: Spray a small amount on the air filter from about 20 cm away and start the engine immediately. For petrol engines slightly press the accelerator. For diesel engines fully depress the accelerator. Do not spray on spark plugs and parts of the heating system.
