# Compressor Air Hose PU (10m)

## AH-02

AH-02 Compressor Air Hose PU 10 m is a spiral compressor hose of 10 m length, designed for supplying air tools with compressed air. The hose is made of polyurethane and it is resistant to wear, tear as well as fire. The coupling is easily released and ensures a quick and comfortable connection of the compressor to air tools.

Product Characteristics:
Coupling - EU Type
Inner diameter x outer diameter- 8x12mm
Length- 10m
Material - Polyurethane
Optimal Temperature -40 °C to +85 °C
Packing unit - 25 pc
Pressure - up to 14 bar
