

A/C Recovery & Recharge Station for Hybrid Cars

CT4106

Automatic device for filling of air conditioning systems for hybrid vehicles for which the manufacturer prescribes the use of R134a.

Suit for: Hybrid car
Refrigerant: R134a
Mode: Fully-automatic
Screen: LCD

Specifications:

Recovery speed: 180~350g/min
Recharge speed: 800~1500g/min
Vacuum speed: 60L/min
Refrigerant tank available capacity: 14 L
Electronic scale range: 0~35 KG
Oil bottle capacity: 300 ML
Operating temperature: 5~50 □
Voltage□ AC220v/50hz/1ph
Max. working pressure□17.5 bar
Low pressure protection□Less than 1 bar
Electronic scale precision□±10g

Compressor□275 w
