

A/C Recovery & Recharge Station for Hybrid Cars

CT4106

Automatic device for filling of air conditioning systems for hybrid vehicles for which the manufacturer prescribes the use of R134a.

Suit for: Hybrid car Refrigerant: R134a Mode: Fully-automatic

Screen: LCD

Specifications:

Recovery speed: 180~350g/min Recharge speed: 800~1500g/min

Vacuum speed: 60L/min

Refrigerant tank available capacity: 14 L

Electronic scale range: 0~35 KG Oil bottle capacity: 300 ML Operating temperature: 5~50 Il Voltage AC220v/50hz/1ph Max. working pressure 17.5 bar

Low pressure protection Less than 1 bar

Electronic scale precision 1±10g

Compressor 275 w
