

MANNOL Energy Formula LR 0W-30

7922

Innovative universal energy-saving ester-containing fully synthetic premium engine oil specially developed for diesel and petrol engines of LAND ROVER and JAGUAR vehicles.

Product properties:
- The ester components of the oil provide excellent anti-wear and anti-friction properties due to the exceptional durability of the oil film, which, combined with excellent pumpability, significantly increases the service life of the engine even in “start-stop” driving conditions;
- Saves fuel due to reduced HTHS and excellent anti-friction properties;
- Provides easy cold starting due to excellent turnability and pumping properties, which significantly reduces engine starting wear;
- Has optimum viscosity over a wide temperature range to ensure stable engine operation in all operating conditions, even under overload;
- The synthetic base ensures low evaporation and consequently low operating consumption;
- Due to its excellent detergent-dispersant properties and high thermal-oxidative stability, it efficiently prevents all kinds of deposits and keeps engine parts clean throughout the entire interval between oil changes;
- Due to its high thermal-oxidative stability, it resists ageing effectively, thus extending the oil change intervals;
- Compatible with all exhaust gas aftertreatment systems, DPF, TWC, EGR and SCR thanks to Low SAPS technology;
- Suitable for Liquefied Natural Gas (LNG) and Petroleum Gas (LPG) engines.

Suitable for JAGUAR LAND ROVER group petrol and diesel engines in passenger cars and light delivery trucks meeting EURO III, IV, V standards with catalyst (TWC) and particulate filters (DFP/FAP), where SAE 0W-30 oil or ACEA C2 compliant oil is recommended.
