

MN ULTRA MIX 25W-60 7411

Engine Oil 25W-60 is a premium, high-performance lubricant meticulously formulated to meet the demands of modern high-powered engines. Designed for both petrol and diesel engines, this oil offers exceptional protection and performance across a wide range of operating conditions.

Applications:

- Heavy-duty commercial vehicles and trucks
- High-performance petrol and diesel engines
- High-mileage and older engines require thicker oil for better protection
- Industrial and construction machinery

Features and Benefits:

- **Superior High-Temperature Performance:** This oil provides excellent stability and lubrication at high temperatures, ensuring optimal performance even in extreme conditions.
- **Enhanced Wear Protection:** The robust formulation includes advanced anti-wear additives, significantly reducing engine wear and extending the lifespan of engine components.
- **Oxidation and Thermal Stability:** MN7411 is engineered to resist oxidation and thermal breakdown, maintaining its protective qualities over extended periods and under high-stress conditions.
- **Sludge and Deposit Control:** This oil contains effective detergents and dispersants that prevent the formation of sludge and deposits, keeping the engine clean and ensuring smooth operation.
- **Corrosion and Rust Protection:** With superior anti-corrosion additives, this oil protects critical engine parts from rust and corrosion, especially in harsh environments and during prolonged periods of inactivity.
- **Improved Fuel Efficiency:** The optimised formulation reduces friction and improves fuel economy, helping to lower operating costs and reduce emissions.
- **Extended Oil Change Intervals:** MN7411 is designed for extended oil change intervals, providing long-lasting protection and reducing the frequency of maintenance.
- **Multi-Fuel Compatibility:** Suitable for use in both petrol and diesel engines, making it a versatile choice for a wide range of vehicles, including high-performance sports cars, heavy-duty trucks, and industrial machinery.

Specifications

SAE 25W-60
API SL/CF-4
