

MANNOL GLV-ONE
7929

Innovative energy-saving fully synthetic motor oil of the latest generation with ultra-low viscosity based on polyalphaolefins (PAO). Contains a complex of organic friction modifiers and synthetic esters. Designed for modern passenger gasoline and diesel engines with and without turbocharging and with direct fuel injection. Especially recommended for hybrid engines. Developed in accordance with the latest API SQ and JASO GLV-1 standards.
Product features:
• Maximum fuel economy in all operating conditions due to ultra-low kinematic (at 100 °C) and reduced high-temperature HTHS viscosity (at 150 °C) and excellent anti-friction properties.
• Outstanding pumpability (MRV) and cranking ability (CCS) at low temperatures for reliable cold starts and reduced engine wear during start-up and idling.
• Prevents deposits in the combustion chamber, especially in the piston ring and valve areas; has excellent detergent-dispersant properties and high thermal-oxidative stability.
• Ester components and PAO base provide superior wear protection due to strong oil film strength; friction modifiers offer reliable protection even under boundary friction conditions, increasing engine life in high-speed and start-stop modes.
• Eliminates LSPI (Low-Speed Pre-Ignition) in turbocharged direct injection engines.
• Neutral to sealing materials – prevents leaks, has low volatility and low oil consumption, and supports extended oil change intervals.
• Compatible with all exhaust aftertreatment systems: DPF, GPF, TWC, EGR, and SCR.
• Improved timing chain wear protection.
• Compatible with alcohol-based fuels, especially ethanol up to 85% (E85).
Intended for latest-generation gasoline and diesel engines in passenger cars, light SUVs, minibuses, and light trucks, including hybrids (EREV, REEV, PHEV, BAHV, HEV), requiring 0W-8 viscosity and performance level.
Including:
• MAZDA 2 Hybrid 1.5 (2022 and later)
• Toyota Yaris Hybrid (2020 and later)
• Toyota Yaris Cross Hybrid AWD (2021 and later)
• Toyota Corolla 2.0 (2023 and later)
• Toyota Crown 2.5 AWD (2022 and later)
• Toyota Grand Highlander 2.5 Hybrid and AWD Hybrid (2023 and later)
• Honda gasoline engines with EARTH DREAMS technology since 2013: Fit (Jazz), Civic, Accord, etc.
